weavabel®

EUDR:
How can Weavabel support customers?

As a trims and packaging supplier and compliance partner, Weavabel is preparing to support customers with accurate product information, stronger traceability and practical EUDR documentation for applicable products and shipments.

Our support

Product scope support: Helping customers identify Weavabel products that may require further EUDR assessment, subject to product classification.

Supplier data collection: Working with our supply chain to collect and maintain relevant origin, traceability and compliance information.

Documentation support: Providing available declarations, certification information and supporting product data where applicable.

Traceability and visibility: Strengthening the connection between relevant products, suppliers and source information.

DDS reference information: From January 2027, providing DDS reference numbers for applicable shipments entering or moving within the EU via Weavabel Portugal.

Regulatory awareness: Sharing practical updates as European Commission guidance and implementation requirements develop.

Digital compliance through osapiens

osapiens

Our partnership with osapiens supports:

- Due diligence data management
- Compliance automation
- Supplier collaboration
- Traceability and geolocation data
- Centralised evidence
- Dashboards and reporting
- Audit-ready records

Why work with Weavabel?

- A practical compliance programme already implemented across our business
- Trims and packaging expertise connected to supply chain data
- Direct supplier engagement
- Digital support through osapiens
- A focus on accurate documentation, transparency and commercially workable solutions

Our goal is to make EUDR information clearer and more usable for customers. By combining Weavabel's supply chain expertise with osapiens technology, we are building the processes needed to support traceability, documentation and applicable DDS reference information.

Disclaimer: This material is for general information only and is not legal or regulatory advice. EUDR applicability depends on the specific product classification, transaction, legal entity, role and circumstances.

Get in touch to discuss your packaging requirements and EUDR readiness.
